# OUR HISTORY

The Cheval Liberté brand was created in 1995 by Denis Rulquin (1949-2006), a professional in the trailer sector and founder of the group, with the objective of delivering quality products that meets customer expectations.

As passionate riders and breeders, the Rulquin family's manufacturing activities were naturally oriented towards the equestrian world.

Thanks to them being riders, breeders and the initial users of Cheval Liberté products, the family places particular emphasis on designing and developing innovative products.

Today, with over 29 years of experience to its name and under the running of Gregory Rulquin.

GOLD AND ALULINE

New range, new material

Cheval Liberté is a European leader in the horse trailer and equestrian buildings sector. With their recognised “savoir-faire”, Cheval Liberté’s design team focuses on creating modern, functional and robust products. From technological mastery to personalised marketing, Cheval Liberté’s products are created with both horse and rider in mind.

DRIVEN BY INNOVATION AND CREATED BY EQUESTRIAN PROFESSIONALS, DESIGN, QUALITY AND SAFETY ARE AT THE HEART OF OUR TRAILERS. THE CHEVAL LIBERTÉ COMPANY INFRASTRUCTURE IS ROOTED FROM A PERFECT COLLABORATION OF OUR SKILLS AND EXPERIENCE.

# PULLMAN 2

performance

« COMPARE AND TEST DRIVE !  
EASY TO TOW.

WARNING; YOU MIGHT FORGET  
THAT YOU'VE GOT A TRAILER  
ATTACHED. »

Cheval Liberté is the only manufacturer to produce its own single-piece chassis. Developed by our design team, the lowered chassis has a centre of gravity that sits as close as possible to the road for optimum balance control of your trailer.

**PULLMAN 2 SUSPENSION** « FREE  
YOURSELF FROM THE STRESSES OF TRAILER TRANSPORT...  
PERFECT ROAD-HANDLING CONTROL. »

Closer to car technology, the Pullman 2 suspension consists of 4 galvanised steel independent articulated arms with 4 torsion springs and 4 dampers. This technology ensures unbeatable road-holding capacities.

Our factory is equipped with the latest generation laser tooling, enabling the entire loading sill of the trailer to be lowered.

Result : no incline, no "step", but a flat surface that is very comfortable for your horse. With a reduced floor height of 30 cm, you won't have a problem loading your horses. The Pullman 2 suspension greatly reduces box movement, muffles transport noise and absorbs the bumps in the road.

# LOWERED CHASSIS A SOLUTION TO SAFETY

## SAFETY

Safety elements such as brakes, suspensions, wheels and accessories are all officially approved and regularly checked. Our trailers have European approval. Our trailers have a 2-year parts and labour guarantee and a 5-year guarantee for the aluminium planking and sides.

# RAMP-DOOR

A STANDARD EQUIPMENT ON ALL  
CHEVAL LIBERTÉ HORSE TRAILERS :

« NO MORE STRESS AND  
FATIGUE FOR YOUR HORSES  
OR THE DRIVER.  
IF YOU TRY IT, YOU'LL BUY IT ! »

Cheval Liberté fits as standard to all their trailers a simple and functional system to transforming the ramp into a door.

« FROM 1 UP TO 4 HORSES, AND 12 DIFFERENT MODELS FOR EVERY KIND OF USERS. »

# CONSTRUCTION

YEARS OF RESEARCH AND DEVELOPMENT HAVE ENABLED US TO PERFECT AND PATENT A UNIQUE ASSEMBLY METHOD.

Today this patent means that we can design and develop trailers that are stronger, lighter and with outstanding road-holding capacities !

## EQUIPMENT

Right from the basic versions, our trailers are equipped to guarantee the best comfort and safety conditions.

## VENTILATION

Never too hot or too cold, simply well-ventilated, our trailers are equipped with air-circulation accessories for your horses' maximum comfort during transport.

## THE LOOK

Cheval Liberté trailers have an aerodynamic, modern, flowing design. The aerodynamics contribute to a significant reduction in towing vehicle fuel consumption.

Taken by a particular colour or want to match it with your car ? Choose your favourite colour option from black, iron grey, blue, white and purple...

## MATERIALS

We use materials that are reputed for their technical qualities

► 18 mm anodized aluminium for the sides

► Reinforced fiberglass

► Hot-dipped galvanised steel

► Vulcanised rubber

You may not know it yet, but our stables, our vans and all our services are inspired by you. We watch our products live and we are always listening to you.

We know how demanding and rigorous the horseman is on a daily basis.

Our commitment is to convince you that innovation is a strength. This is what drives us to invent durable constructions, reliable means of transport and a wide range of innovative equipment. Our products are in line with wanting to draw a line between unaffordable luxury and «low cost» being always too expensive.

To accompany you in your passion is one of our motivations, that is why we invite you to discover in these pages, the best of the equestrian construction and the harness transport. Discover also our activities such as the rental of boxes and event structures.

Very involved in the industry, we are constantly developing our activities with dynamism and modernity. From the family business created by Denis Rulquin in 1995, we keep the respect of a job well done, we continuously improve things with rigour and method. In our factories, under the management of Bogdan Malecki, we act out of conviction, with authenticity and curiosity. These values guide us towards excellence and we simply want to share them with you.

Let us guide you, exchange and share.

Grégory Rulquin

Christiane Rulquin

Fabien Rulquin

Bogdan Malecki
